OK here's what we've got with the added ND label I just received.

I also checked and a number of the pending labels have expirations either 12/31/2020 or in 2021. Both of those dates are after the 12/20/2020 expiration of the parent label. To avoid the confusion this could cause unnecessarily, I put in a suggested edit for the table "Expiration date extended through 2020". If we decide to let the registrations go forward, I'll email the states and get them to email me revisions. I'm assuming this is just a type-o.

I emailed our questions to OGC, but haven't heard back. You're all CCed and I told them to reply back to you guys since I will be out.

I'm also attaching a copy of the registration tracking. It's not quite where I'd like it to be, but it's much better than it was and better than nothing. I'd hoped to give you guys a demo, but unfortunately ran out of time. Hopefully it isn't too confusing.

In case you need to look at any of the actual jackets they are in a drawer in my cube. There's a sticky note on it. I showed Mike where they are. If you borrow a jacket, leave me a note so that I know where it went (... these are the only records/copies of the jackets out there, so I'm trying to keep track of them).

If you need the two NY jackets, they're sitting on the desk above the drawer with the dicamba labels.

I'm going to turn off my phone forwarding while I'm on vacation, but if you all can't make sense of my notes/can't find something/really need something from me. You can give me a call on my cell (703)399-4426. Hopefully I've left you with enough info that you won't need to do that ☺

Happy holidays and see you in 2020!

I'm trying to get a few things squared away for my team before I leave for the holiday. I have a number of reviews/things to assign that I didn't get to last week, while I was working on this document.

Do you all mind if I do that before I work on the summary? Hopefully I can get through all of that and start on the summary, but I'm not sure I have time to do both things (or at least not both completely)...

Let me know how you'd like me to proceed.

Claire

Hi all,

Here are the edits to the main document that we discussed earlier.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

The following questions remain for OGC about NY regs:

3. Bob indicated that he could locate anything about the NY regs. This doc references the NY regs that the state is using in conjunction with 24(c) http://www.dec.ny.gov/docs/materials_minerals_pdf/nysactiveingredrev.pdf
More info could be added to address this in the NY section on page 6, and on the top of page 7.

I'll take a crack at an executive summary now.
